Mr. Zanzuccki was awarded the prestigious Len Foote Award in 1998 in recognition of outstanding contributions to the horse racing industry. He is also the first non-commissioner to be elected to the Association of Racing Commissioners International Board of Directors. In addition to this honor, Mr. Zanzuccki was subsequently elected as an officer of this international organization and served as its chairman from April 2004 through April 2005.

## **MISSION STATEMENT**

The New Jersey Racing Commission (“NJRC”) governs, directs and regulates horse racing and pari-mutuel wagering. The NJRC is a member of the Department of Law and Public Safety and is responsible for regulating the horse racing industry in the State through vigilant oversight of all racing and wagering related activities to ensure the integrity of the sport and the safety of its participants.

### **Commission Structure**

Horse racing in New Jersey is regulated by Commissioners who, by law, are appointed by the Governor, with the advice and consent of the Senate. They set policy and rule on all matters affecting racing such as issuing permits to conduct horse racing meets, approving expenditures and adjudicating licensing matters. They also consider the issuance of licenses for off-track wagering sites, are responsible for the oversight and regulation of account wagering which includes telephone and internet wagering in New Jersey. This year, the following individuals served as Commissioners: Dennis A. Drazin, Chair, Anthony T. Abbatiello, Manny Aponte, Anthony R. Caputo, Peter J. Cofrancesco III, Noel Love Gross, and Francis X. Keegan, Jr.

The NJRC employs staff to effect policy, including an Executive Director who is responsible for overseeing the day-to-day operations of the Commission in accordance with accepted business and financial practices. Francesco Zanzuccki serves as the Executive Director.

Most of the year, NJRC had a full-time staff of 58 employees who conduct the daily functions of regulating horse racing. On October 31, a workforce reduction plan was implemented that resulted in a reduction of full-time staff to the current 38 employees. The Commission also maintains a pool of part-time workers to supplement staff as needed. Activities are divided and budgeted into four functional areas:

Administrative/Financial	\$2,036,229.00
Racing Operations	\$4,850,771.85
Licensing	\$ 912,884.14
Veterinarians	\$ 905,469.22
Chemical Testing	\$2,302,114.68
Officials	\$ 730,303.80
Pari-Mutuels	\$ 324,038.45
Investigations	<u>\$ 481,802.03</u>
Total Operating Budget	\$7,692,841.33

### **Administrative/Financial**

Much of the general administrative functions are performed by the Department of Law & Public Support Services unit specifically organized to streamline the personnel, budget and logistics functions of several State agencies.

Commission personnel perform administrative functions specific to racing matters including rule and regulation composition, staffing and scheduling, communications with and oversight of industry-related organizations, adjudication support, and report writing. Commission staff maintains a horse racing financial system that records and calculates all receipts and payments of funds from pari-mutuel wagering. In addition, it monitors the finances of certain industry organizations as required or requested.

### **Racing Operations**

All matters related to the regulation of the actual “running of the races” are the responsibility of the employees in this functional area.

Each individual and entity associated with horse racing must be licensed by Commission personnel. All participants must also be fingerprinted. A state-of-the-art computer system networks the Trenton office with all satellite racetrack locations. The Commission has a very successful mail-out program and participates in the Association of Racing Commissioners International multi-jurisdictional licensing program for owners, and is a member of the National Racing Compact.

The Commission employs racing officials who are present at each racetrack to monitor the running of every race in New Jersey. They issue penalties for rule infractions and rule on matters affecting the integrity of racing, including licensing concerns.

Veterinarians are also present at every live race meet to ensure the safety of the animals and to verify that each horse is fit to race.

Race horse samples are tested for the presence of illegal drugs after each race, and on occasion, before a race and in out-of-competition settings. These randomly selected samples undergo a complete chemical analysis at a State Police Forensic Laboratory at the Meadowlands Racetrack.

### **Pari-Mutuels**

Every wager made on every live and simulcast race is recorded and checked for accuracy and compliance with Commission rules and regulations. Commission staff calculate financial information from these wagers for proper distribution of funds. Racing Commission staff oversee all aspects of pari-mutuel operations to ensure they are conducted with integrity.

### **Investigations**

The investigative staff is responsible for monitoring activities at all New Jersey racetracks, off-track wagering facilities, participating casinos, and off-track stablizing facilities.

An in-house investigative unit provides the Commission with the ability to oversee the integrity of racing by conducting investigations into alleged rule violations, performing inspections to determine compliance with regulations, monitoring activity on racetracks and off-track stablizing facilities, providing testimony at administrative hearings and much more.

## HIGHLIGHTS AND 2011 KEY ISSUES

This year was one of uncertainty and transition in New Jersey's horse racing industry. It was mandated that the State get out of the horse race business and most of the year was spent on trying to accomplish this. Because of these ever changing scenarios the Commission was extremely active in its oversight of the industry and held five additional Commission meetings to ensure all matters requiring official Commission action were considered. As an example, at these special meetings, the Commission approved four changes to live racing schedules during the year.

The New Jersey Sports and Exposition Authority ('NJSEA'), operator of Monmouth Park and Meadowlands Racetrack, decided to lease their facilities to private interests. Leasing the Meadowlands for harness racing was accomplished when the Racing Commission on December 20 approved the permit for New Meadowlands Racetrack, LLC to operate racing at the track. The plan to lease Monmouth Park for thoroughbred racing fell through when Monmouth Park Racing, LLC, in December, decided to not complete the transaction. As a result, the permit for Monmouth Park to race thoroughbreds reverted back to the NJSEA who will operate the track until another private investor is selected.

The Commission promulgates rule and regulations to support and enforce its regulatory function and during 2011 the following were adopted:

Safety Vests and Helmets 13:70-8.18 and 13:70-9.12 (effective April 18)

These were adopted as a result of a petition for rule making by the New Jersey Horse Racing Injury Compensation Board. The rules upgrade the standards for Commission-required safety vest and helmets worn by thoroughbred industry employees on horseback.

Administration of Non-steroidal Drugs 13:70-14A.9 and 13:71-23.8 (effective November 7)

This amendment reduces the permitted level of phenylbutazone present in a horse's system on race day from 5 to 2 micrograms.

Off-track Wagering 13:74 (effective May 23)

As a result of legislative action, the Commission adopted these amendments of the rule that deals with the transfer of OTW permits after certain deadlines.

There were several legislative changes that permitted a reduction of live racing dates in both the thoroughbred and standabred sectors. As a result, the number of live racing dates decreased by 26% from 375 in 2010 to 279 in 2011. Wagering (NJ Gross Handle) totaled \$404,390,032 in 2011 which is an 8.0% decrease from \$439,738,068 wagered in 2010.

Because of this trend in scheduling fewer live racing dates, the need for regulatory oversight also decreased. As a cost saving measure, the Commission developed a workforce reduction plan that resulted in the elimination of 20 full time positions when full-time Commission staff was reduced from 58 to 38 on October 31. Coupled with other cost saving measures, the overall Racing Commission budget was reduced by about two million dollars.

The Racing Commission continued its comprehensive drug testing program during the year. In addition to testing for steroids, the Commission conducted out-of-competition testing at 17 separate locations namely, 12 at licensed New Jersey off-track stabling facilities, three at stabling facilities in New York, one at the Meadowlands Racetrack and one at Pocono Downs Racetrack in Pennsylvania. A total of 52 horses were tested. As part of its regular testing program, during 2011, the State Police Forensic Science Laboratory tested 26,951 blood and urine samples collected from horses with 28 testing positive for the presence of illegal drugs or the presence of drugs over the dosage limits.

Racing Commission veterinarians and investigators assisted Department of Agriculture personnel in enforcing and monitoring a quarantine at two thoroughbred horse farms as a result of an outbreak of Equine Herpes. Although one horse died, the quarantine effectively prevented the spread of the disease.

Two new forms of wagering were researched and investigated by staff including Single Pool Wagering and Exchange Wagering. Several meetings were held with industry representatives and vendors to discuss the merits of each and the Executive Director chaired a session on Exchange Wagering at the annual Association of Racing Commissioners International conference.

The Commission's Executive Director is also the Chair of the New Jersey Horse Racing Injury Compensation Board that provides blanket workers' compensation insurance that covers certain horse racing industry employees. During the year the Board created and authorized a loss prevention program at racetracks that Commission staff enforced that realized significant results with claims and insured costs being much lower than previous years.

## **NEW JERSEY EQUINE TESTING LABORATORY**

NJRC's Equine Drug Testing Program is administered at the New Jersey State Police Forensic Science Laboratory located at the Meadowlands racetrack. A staff of 16 chemists use modern testing equipment and methods to detect the presence of illegal substances in horses. In 2011, 26,951 blood/urine samples were tested resulting in 28 violations of the Commission's medication rules.

Total Samples Tested	26,951
Positives by Type	
Flunixin	11
Furosemide	8
Boldenone	2
Ipratropium	1
Cenbuterol	1
Stanozolol	3
Testosterone	1
Zomepirac	1
Total Positives	28

The Commission also randomly tests jockeys, and drivers for the presence of illegal drugs. It also tests for alcohol abuse by race participants and officials. In 2011, one positive was detected from 466 samples tested.

## **NEW JERSEY HORSE RACING INJURY COMPENSATION RACING BOARD**

The Commission encouraged the creation of this Board that provides group workers' compensation insurance for the horse racing industry. The Board consists of representatives of the public and private sector including members of horse race organizations, insurance providers, risk management, state banking and insurance department, and the NJRC. The program covers employees of the Board, namely drivers, jockeys, exercise riders and thoroughbred trainers' employees, with 2011 premiums established at \$2,431,597. In 2011, the Board returned to the Assigned Risk Program with NJM being the provider.
